-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 04 June 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Election/Restrictions***

1. During a telephone interview with the attorney of record, Mr. Kirk Damman, on 10/11/07, it was determined that the previous Restriction Requirement was missing an additional specie for election. The specie election that is directed toward the front portion having a recessed front portion or a horizontal front runner has been withdrawn since the applicant discloses an embodiment that features both limitations. However, another specie has been added to the "distal lumen" embodiments.
2. This application contains claims directed to the following patentably distinct species:
  - a. The applicant is required to elect a single distal lumen specie from the following:
    - i. Species I, as shown in Fig. 8, is directed towards the distal lumen having a single opening (32).
    - ii. Species II, as disclosed in paragraph [0053] of the specification, is directed towards the distal lumen having two openings: an upper portion and a lower portion with the same diameter.
    - iii. Species III, as disclosed in paragraph [0052] of the specification, is directed towards the distal lumen two openings: an upper portion and a lower portion with different diameters, such as keyhole pattern (Fig. 1-3).
  - b. The applicant is further required to elect a single specie from the following:

Art Unit: 3773

iv. Species IV, as shown in Fig. 8, is directed towards a single distal lumen with no additional openings.

v. Species V, as shown in Fig. 1, is directed towards a single distal lumen with additional openings (38).

3. Each of the species in the categories above are independent or distinct because the inventions as claimed are mutually exclusive; are not obvious variants; and the inventions as claimed have materially different design.

4. The applicant is required under 35 U.S.C. 121 to elect a single specie from each of the category above. Once the applicant has elected a single specie from each category, any non-elected specie must be withdrawn, even when in combination with another elected specie. Currently, at least independent claims 33-35 and 40 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

Art Unit: 3773

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Darwin P. Erezzo whose telephone number is (571) 272-4695. The examiner can normally be reached on M-F (8:00-4:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jackie Ho can be reached on (571) 272-4696. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
